A Few of Our Cedar Lumber Options

Rough cut cedar is our specialty. We carry a wide range of cedar beams and lumber in our Georgia lumberyard. If we don't have it stocked – we'll special order it for you.

We also offer specialty in-house planing and sawing services where we can cut to suit your needs. Our cedar wood is also ideal for building structures, such as pool houses, pergolas, and other custom outdoor structures.

Rough Cut Cedar Boards

Rough cut cedar is a great choice for outdoor projects due to its natural resistance to decay and rustic look. You can leave the cedar unfinished and it will weather into a silver-grey tone that looks great, or apply an oil finish to preserve the golden tone!
